

THE ENVISANT DIFFERENCE

A Savory Success!

I hope this update finds you well! Like vibrant fall leaves, the credit card, debit, and prepaid card landscape is rapidly changing and bringing new opportunities. At Envisant, we are committed to helping you navigate this ever-advancing landscape to deliver secure, innovative, and member-centric payment solutions that fuel your credit union's growth and success.

My team and I recently met with some of the top "chefs" in the credit union space for our annual League Partner Meeting, and it was a dynamic day of creativity and collaboration. Together, we cooked up a well-balanced menu of strategies based on the Envisant Recipe for Success to help credit unions bring your portfolio goals to life!

We all look forward to cooking up more years of success with you!

Best Wishes,

Anthony Mondello
AVP, Sales

Unlocking Your Credit Union's Full Potential: Bridging the Generational Divide in Your Workforce

How to successfully weave together a multi-generational workforce to develop and offer relevant services across generations.

The Role of Automation in Your Credit Union's Lending

Today's credit union lenders are seizing the opportunity to enhance member service at every critical touchpoint. As member expectations evolve, the demand for more convenient options, such as online membership and loan applications with swift decisions, is increasing. Delivering an exceptional online member experience is crucial for the success of credit unions.
